

Two Days workshop on SMART BUILDING & SMART CITIES

Architecture Association of Dept. of Architecture at KITS Ramtek has organized the 2 days workshop on SMART BUILDING & SMART CITIES by Prof. Debashish Sanyal , Prof. & Head Dept. of Architecture, NIT Raipur during 1st & 2nd Jan 2020 for the benefit of all architecture students. Associate Dean Student Activities has introduced the association programs to be organized in this Academic session during the inaugural function. Dr. B. Ram Rathan Lal, Principal, has addressed the gathering with his best wishes for the workshop saying Architecture is the most hard working Professional course.

The resource person Prof. Debashish Sanyal has informed in his inaugural speech that smart city consists of smart buildings as a major part of it, hence architects should always own the responsibility of smart cities and its buildings.

The workshop included 5 presentations namely

- Need of smart buildings
- Building Automation System
- Faculty management cost benefit smart material
- Smart buildings sustainability, smart cities & its video sharing
